

**REMARKS**

**Claim Rejections**

Claims 1-8 are rejected under 35 U.S.C. § 112, second paragraph.

Claims 1-8 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. § 112, second paragraph, and the objections as set forth in the outstanding Office Action.

**Amendments to Specification**

Applicant has amended the Specification as noted above to cure obvious grammatical and idiomatic inaccuracies. It is believed that the foregoing amendments to the Specification overcome the outstanding objections thereto. No "new matter" has been added to the original disclosure by the foregoing amendments to the Specification.

**Drawings**

It is noted that no Patent Drawing Review (Form PTO-948) was received with the outstanding Office Action. Thus, Applicant must assume that the drawings are acceptable as filed.

**Claim Amendments**

By this Amendment, Applicant has canceled claims 2 and 7 and amended claims 1, 3, 4, and 5 of this application. It is believed that the amended claims specifically set forth each element of Applicant's invention in full compliance with 35 U.S.C. § 112.

Since claims 1, 3, 4, 5, 6, 8 have been indicated as being allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. § 112, no detailed discussion of the cited prior art references is believed to be necessary.

**Summary**

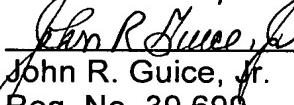

In view of the foregoing amendments and remarks, Applicant submits that this application is now in condition for allowance and such action is respectfully

requested. Should any points remain in issue, which the Examiner feels could best be resolved by either a personal or a telephone interview, it is urged that Applicant's local attorney be contacted at the exchange listed below.
